

Standard Foam Tolerance:

Thickness

Desired Thickness	< .5"	.51"-2"	2.1"-4"	>4.1"
Tolerance of +/-	0.0625"	0.0625"	.125"	3 % of Thickness

* Contact your sales rep regarding tolerances on parts thinner than .5" thick

Cut to Size

Desired Cut Size	< 2"	2.1"-4"	4.1"-12"	24.1"+
Tolerance of +/-	0.0625"	.09375"	.125"	0.5% of Thickness

Closed cell materials are allowed shrinkage, which is above and Beyond the standard Foam Industries tolerances.

Temperature and humidity fluctuations may expand or contract materials after they have been cut.

Die cutting may create a concave edge, which is not factored above.
